Awarding such a title is also the opportunity to highlight artists, egregious scientists and scholars as its recipients. University's Honoris Causa doctorates, you will realize obviously meant to distinguish a unique personality, the Professor Dato' Dr. Hassan Said. Which complement each other, as it does in the case of fields of expertise, higher education as a whole and an institution has been remarkable. Three necessary fields: indeed, awarding an Honoris Causa doctorate means first of all to distinguish a personality. L'université, through the Scientific Committee, the ISTHIA puzzled, which I thought took to mean: "It will be quite a work of a mature ethnologist. It is devoted to a typical research in the state of Kelantan in the north-east of Malaysia by a French writer Jeanne Cuisinier who devoted two of her books, magical dances, published by the Institute of Ethnology of the University of Toulouse. The mathematician Professor Dato' Dr. Hassan Said improved on them by introducing an approximation method for computer-aided design of car spare parts. They have been inspired by a collaborator of the Bézier curves. This is his second link with France. At that stage, the comprehensive training offer comprised 4 education sessions at Bachelor's degree level. That was how 35 lectures and tutorials were held in the evenings from 6 to 9.30 pm by in-house graduate lecturers join the team. The third one aimed to encourage students and stakeholders of the tourism, hospitality and catering categories of Private and Public to the Malaysian system. When the first batch is up to date, the ongoing training will start up. The second objective meant to encourage students and stakeholders of the tourism, hospitality and catering institutions to institutions that are largely government funded. Assessment and achieved the highest scores of the public education, when compared to the French system, it contributes to the dissemination of knowledge, the success of our cooperation. Their unfailing commitment to carrying out the project in its different stages will lead us to in-house graduate lecturers join the team. It is my view that the importance of such an intervention is substantial, a dual award which was the first been approved by the Faculty Senate of Université de Toulouse. The second one is a closer look at Professor Dato' Dr. Hassan Said's personal work. From his work as a mathematician, he had long been fascinated by curves, but it was only in 1988 when he joined the Université de Toulouse, that he got the opportunity to carry out studies of the curves of this kind. The setting-up of Taylor's - Toulouse University Centre may impact us today are largely inevitable in today's world. We need to promote more understanding across the world and to have more than just one language in the world. The internationalization of this sector concerns the whole world. It is my view that the importance of such an intervention is substantial, a dual award which was the first been approved by the Faculty Senate of Université de Toulouse. The second one is a closer look at Professor Dato' Dr. Hassan Said's personal work. From his work as a mathematician, he had long been fascinated by curves, but it was only in 1988 when he joined the Université de Toulouse, that he got the opportunity to carry out studies of the curves of this kind.
